

WIRING DIAGRAM FOR LES PAUL®

Directions: Tie white & green wires together (Ground) and solder to volume pot. Take orange wires (hot) and connect to switch where noted by blue arrows.

Version #2

Note: All Lead wires are on the same side as the high "E" lead string.

500K pots recommended for better tone.
 .022mfd cap for brighter tone
 or use: .047mfd cap for darker tone
